Profile

Digital Media Specialist with a focus on Front-End Web Development. I am smart, capable, intensely driven, enjoy collaborating with great minds, constantly seek out new challenges, and am not afraid to get my feet wet.

Experience

Digital Media Developer, Sametz Blackstone Associates Boston, MA 2006-present
Responsible for development needs of small, well-known Boston Design and Strategy firm, consisting of front-end development to W3C standards, application planning, CMS implementation, client training, usability/accessibility consulting, SEO, and information architecture.

Freelance Web Designer/Developer Boston, MA 2006-present
Develop sustainable websites for clients from initial planning to launch. Hand coded templates, setup CMS, designed and produced web applications, and consulted on design.

DVD Menu Artist, Left Coast Digital Aptos, CA 2005-2006
Designed DVD menus for high volume DVD producer. Took the lead in frame-by-frame restoration of *Bride of the Monster*. Collaborated on content and research for *PEZ Universe*, an interactive PEZ encyclopedia. DVD menu highlights include: *He-Man and the Masters of the Universe*, *The Legend of Prince Valiant*, and *Flash Gordon* (animated).
